Meeting room tables

A simple design, yet practical and sturdy.

This small focused range of uncomplicated tables have a 25mm beech surface, handmade in the UK using locally sourced MFC approved by the FSC (Forest Stewardship Council). The legs have a 60mm diameter ensuring strength throughout the entire construction, with height adjustment for uneven surfaces. Legs easily removed by unscrewing them. This allows storage or easy transportation for the range. Links available to create a secure configuration.
